AMENDMENTS TO THE CLAIMS

1-17. Canceled.

- 18. (Currently Amended) A pharmaceutical composition comprising a therapeutically effective amount of <u>an antibody antibodies</u>, <u>antigen binding fragment of an antibody fragments</u>, or a combination thereof that specifically <u>binds bind</u> to <u>ribitol phosphate</u> wall teichoic acid (WTA) of *S. aureus*, wherein said <u>antibodies or fragments antibody or fragment</u> thereof <u>alleviate or block alleviates or blocks</u> <u>staphylococcal</u> colonization <u>by *S. aureus* upon administration to a patient.</u>
- 19. (Original) The composition of claim 18, wherein the composition comprises a polyclonal antibody that specifically binds to WTA.
- 20. (Original) The composition of claim 18, wherein the composition comprises a monoclonal antibody that specifically binds to WTA.
- 21. (Original) The composition of claim 18, wherein the composition comprises a multiplicity of MAbs that specifically bind WTA, wherein the MAbs have non-identical amino acid sequences.
- 22. (Original) The composition of claim 18, wherein the composition comprises a chimeric antibody that specifically binds to WTA.
- 23. (Original) The composition of claim 18, wherein the composition comprises a humanized antibody that specifically binds to WTA.
- 24. (Original) The composition of claim 18, wherein the composition comprises a human antibody that specifically binds to WTA.
- 25. (Currently Amended) The composition of claim 18, wherein the fragment is chosen from the group consisting of Fab, Fab¹, F(ab')2, Fv, SFv, and scFv fragments.

26. Canceled

- 27. Canceled
- 28. (Previously presented) A vaccine comprising: (a) the composition of claim 18; and (b) a pharmaceutically acceptable carrier.
 - 29. Canceled
 - 30. Canceled
 - 31-38. Canceled.
- 39. (Withdrawn) A method for preventing or treating a staphylococcal infection in a patient, which comprises instilling into the patient a prophylactically or therapeutically effective amount of the composition of claim 18.
- 40. (Withdrawn) The method of claim 39, wherein the composition comprises a polyclonal antibody that specifically binds to WTA.
- 41. (Withdrawn) The method of claim 39, wherein the composition comprises a monoclonal antibody that specifically binds to WTA.
- 42. (Withdrawn) The method of claim 39, wherein the composition comprises a multiplicity of MAbs that specifically bind WTA, wherein the MAbs have non-identical amino acid sequences.
- 43. (Withdrawn) The method of claim 39, wherein the composition comprises a chimeric antibody that specifically binds to WTA.
- 44. (Withdrawn) The method of claim 39, wherein the composition comprises a humanized antibody that specifically binds to WTA.
- 45. (Withdrawn) The method of claim 39, wherein the composition comprises a human antibody that specifically binds to WTA.
- 46. (Withdrawn) The method of claim 39, further comprising the instillation of at least one anti-staphylococcal drug.

47. (Withdrawn) The method of claim 46, wherein the anti-staphylococcal drug comprises lysostaphin, nisin, or both.

- 48. (Withdrawn) The method of claim 39, wherein the staphylococcal infection is selected from a localized infection, a systemic infection, and a contamination of a foreign body.
- 49. (Withdrawn) The method of claim 39, wherein the antibody fragments are chosen from Fab, Fab', F(ab')₂, Fv, SFv, and scFv.
- 50. (Withdrawn) The method of claim 39, wherein the staphylococcal infection is an *S. aureus* infection.
- 51. (Withdrawn) The method of claim 39, wherein the instilling comprises one or more of nasal instillation, oral instillation, airway instillation, or systematic instillation.
- 52. (Withdrawn) The method of claim 39, wherein the patient is at risk of, or suffers from, at least one of cystic fibrosis, staphylococcal pneumonia, a staphylococcal contamination of a foreign body, a staphylococcal infection, and staphylococcal nasal colonization.
- 53. (Withdrawn) The method of claim 39, wherein the patient is a mammal.
 - 54. (Withdrawn) The method of claim 39, wherein the patient is human.
- 55. (Withdrawn) The method of claim 39, wherein the staphylococcal infection comprises *S. aureus*.
- 56. (Withdrawn) The method of claim 39, further comprising the instillation of a therapeutically effective amount of at least one antibiotic anti-staphylococcal drug.
- 57. (Withdrawn) The method of claim 56, wherein the at least one antibiotic anti-staphylococcal drug comprises mupirocin, bacitracin, or both.

58. (Withdrawn) The method of claim 39, further comprising the instillation of a therapeutically effective amount of at least one lanthione-containing molecule.
